

VIVED Learning Courses: Carpentry

Getting Started with Your Course

To get started with your course, there are typically two quick steps you need to take:

1. **Registration:** Register an account with VIVED Learning Courses.
2. **Enrollment:** Enroll in your course using the provided enrollment key

If this is your first time accessing VIVED Learning Courses, you will need to register an account.

If you have an existing VIVED Learning Courses account, you can sign into the site and proceed with the course enrollment step.

Registration

We currently offer two ways to register an account:

1. Email-based self-registration
2. Self-registration with Google

How you register is your choice. However, if you are using our course as a part of a class, your instructor may ask you to register using a specific method.

You are not limited to registering using a single method. If you registered using email-based self-registration first, you can still register using Google. As long as the two accounts use the exact same email address, VIVED Learning Courses will automatically link the two accounts together allowing you to sign in with either your email and password or using Google.
